Diary CFMS No. 13048 HSSPP  
 Date 05/12/18

Dear Sir/Madam,  
 Greetings from PSSCIVE!

The PSS Central Institute of Vocational Education (PSSCIVE) is an apex research and development organization in the field of vocational education. It is a constituent unit of the National Council of Educational Research and Training (NCERT), established by the Ministry of Human Resource Development (MHRD), Government of India in 1993 at Bhopal. It is a UNEVOC Network Centre (International Project on Technical and Vocational Education) in India.

As you are aware that as per National Skill Qualification Framework (NSQF), the states have introduced the vocational courses for the level I to IV (class IX -XII) from the current session 2018-19. The work related to the development of curricula and courseware was assigned to PSSCIVE, Bhopal. The institute has developed the student's textbooks, teacher handbook, including interactive video-based e-learning materials, which are introduced in your states. Under these courses, about 8.00 lakhs students are getting the benefit of developing their skills by learning these courses for future prospects.

In this regard recently, Hon. Sec (SE&L), MHRD held a review meeting at New Delhi. It was suggested to create an online platform to recognise the good work of vocational teachers who are playing the vital role in implementing the NSQF scheme in their respective states.

PSSCIVE would like to invite your state supporting us to showcase the good work in this endeavour. We request you to kindly circulate the guidelines (copy enclosed) with the state vocational schools and teacher to send us a short video by sharing real good practices of the classroom including practical skills training experiences for vocational classes of class 9 to 12. The short-listed videos will be uploaded on the institute website for circulation among other vocational teachers and with the concerned authorities who are the part of introduction of these vocational courses.

We are hopeful this will facilitate exchange of good ideas and experiences with relevant stake holders for better implementation of the scheme. This will be useful to overcome the difficulty or hurdles if any arises during implementation of this scheme.

Looking forward for a favourable consideration in the matter.

Encl: 1. Guidelines for Video Uploading

With regards,  
 Yours faithfully,

*Khambayat*
