To

The Principal' s
Schools covered under NSQF during 2014-15 (list enclosed)

Memo. No.: 1/33-2014 (NSQF)

Dated: 22.08.2014

Subject: Guidelines for Setting up of Automobile, Security & Retail Laboratory in schools under NSQF Project- Procurement of Equipment.

As you are aware your school has been allotted two Applied Skills (as per list enclosed for ready reference) under Centrally Sponsored Scheme of Vocationalisation in alignment with NSQF.

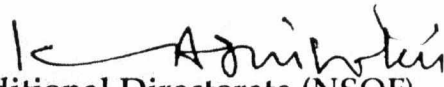

Matter regarding procurement of equipment for curriculum transaction in these vocational courses in (i) Automobile (ii) Security (iii) Retail has been considered by the State government. Since requirements of IT/ITES subject are presently being met through already set up ICT labs in the schools, initial requirements in the remaining three subjects have been works out. Therefore in the first place funds for setting up labs in these subjects are being released.

In view of Govt. of India guidelines/scheme for the implementation of the Centrally Sponsored project under NSQF, State Govt. have approved the proposal to order procurement of necessary equipments through Sub Committee of each school comprising of three members from SMDC including the Chairman of the SMDC, three official members- Vocational Teachers (one from each skill) and the Head of the Institution i.e. Principal. However, keeping in view the equipment to be used, representative of District Industry/Technical Education Department, representative from Sector Skill Council be included will be included in the subcommittee for the purpose of procurement. The VTP's should also be associated for hastening the process and procurement of equipment. List of tools and equipments required to be procured are enclosed in Annexure I, II & III. In case Automobile, the proposal is to buy second hand equipment as the cost of new equipment is quite prohibitive and the students can have advantage to experiment through dismantling and joining/fixing by trying their hands on old equipment freely.

The Sub Committee as a first priority procures the equipment from the rate contract list. In case the item is not on the rate list, it should be procured from the authorized dealer of the company by inviting quotations on competitive rates. Similar procedure for inviting quotations in case of 2nd hand equipments required for Automobile subject be adopted.

equipments should be put to use by making alternate arrangements in the existing buildings.

Please ensure prompt and strict compliance accordingly on top priority basis.
